### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Letovsky on June 03, 2004.

Claim 5 has been amended as follows.

Claim 5. A Thermal Differential Reciprocating Engine apparatus comprising in combination:

- at least one horizontal material retaining means;
- at least one thermally reactive material fixedly mounted within said horizontal material retaining means;
- [at least one] two temperature differential focusing means configured to apply temperature differentials to said thermally reactive material, and
- a linear bearing travel rod mounted substantially parallel with said horizontal retaining means,
- at least one bearing means slidably mounted to said horizontal material retaining means by sliding on said linear bearing travel rod, such that said bearing means may be in contact with and react to, the changes in shape of the surface of said thermally reactive material that occur in response to temperature differentials applied by said temperature differential focusing means.
